CAREER OBJECTIVE

I always want to work at a place where I can use my skills and enhance them. As a IoT graduate I want to work more on automation projects like smart homes, smart cities, smart agriculture, etc. so that I can deliver something to my society. I want to get an opportunity where I can make the best of my potential and contribute to the organization's growth. I want to develop innovations to utilize the technology in the best way.

ACHIEVEMENTS

- I along with my team won the first prize in a college level maze solving competition in I year in which we made a bot which solved that maze in just 5 minutes
- I have also worked on a smart attendance project using Nodemcu board
